

How do I attain a NAFE Life Member Status?

Under the NAFE Bylaws, all NAFE members, including Fellows, Senior Members, Members and Associate Members may apply and be granted NAFE Life Member Status if they meet the following three requirements:

- 1) has been a member of NAFE for at least 10 years or is a NAFE Charter Member;**
- 2) does not receive in fees or wages as a forensic engineer in any calendar year more than fifty (50) times their annual NAFE dues in accordance with their then grade of membership; and**
- 3) is at least 70 years of age.**

Please note that those who attain NAFE Life Member Status continue to receive all NAFE publications and may attend the NAFE Winter and Summer Conferences at a 50% meeting registration discount. Upon attaining NAFE Life Member Status Members are not required to maintain membership in an engineering technical society or in NSPE. However, to maintain NAFE Board Certification, NAFE Life Members must maintain current NAFE CPDs and an active professional licensure. Annual NAFE Life Member dues are currently \$100.

If you are a current NAFE Member, are eligible and would like to attain NAFE Life Member Status, please contact NAFE Executive Director Arthur Schwartz (aschwartz@nafe.org).
